Authorization for this examiner's amendment was given in a telephone interview with Tim Lorenz on 9/6/06.

The application has been amended as follows:

Claim 1, line 12, after the word, "at", " lease" has been replaced with "least".

Reasons For Allowance

2. The following is an examiner's statement of reasons for allowance:

Regarding claim 1, prior art fails to disclose a system for providing wireless data communications between mobile unit and a wired network comprising at least one cell controller separately housed from the plurality of RF ports and configured to perform the high level MAC functions of the wireless data communications standard protocol, while a plurality of RF ports are configured to perform the low level MAC functions of the wireless data communication standard protocol in combination with other limitation set forth in the respective claim. The advantage of such a redesign (as indicated in the Remarks of 09/780,741, page 14, lines 2-6 filed on 5/15/06) provides among other things, a concentration of operational control in one or more
